ABOUT ME

- An in-depth understanding of Java, coroutines, kotlin, jetpack compose Flutter, and Android Studio.
- Solid knowledge of Dart, Swift, and Xcode.
- Proficient in native development tools and languages to build iOS and Android App using cross-platform technology.
- Solid understanding of best practices in mobile UX design.
- API/Web Service integrations (SOAP, REST, JSON, XML).
- Application deployment understanding on Google Play, APP Store Including the creation of IOS provisioning profile. and maintenance of existing applications.
- Should be a team player and have the ability to work with production deadlines.

EDUCATION

B.Tech (Computer Science and Engineering)

Feroze Gandhi Institute of Engineering and Technology, 2014 to 2018

Main coursework: Data Structures, Design and analysis of Algorithms, Computer Architecture, Artificial Intelligence, Database Systems, Operating Systems, Software Engineering.

SKILLS

Android. JAVA. Kotlin. jetpack compose. Flutter. Dart.Bloc, GetX. Provider. Clean Framework , Firebase. MVC. MVP. SQLite. Git. BitBucket.

EXPERIENCE

Software Engineer on Mobile Applications

Techmahindra Ltd

April 2022 to Present

Support the entire application lifecycle (concept, design, test, release and support) Produce fully functional mobile applications writing clean code. Write unit and UI tests to identify malfunctions. Troubleshoot and debug to optimize performance. Design interfaces to improve user experience. Research and suggest new mobile products, applications, and protocols. Stay up to date with new technology trends. .

Senior Flutter Developer

Udama Tech Pvt. Ltd.

December 2021 to April 2022

Troubleshoot and debug to optimize performance. Liaise with the Product development team to plan new features.. Research and suggest new mobile products, applications, and protocols. Stay up to date with new technology trends.

Senior Software Engineer

Mantra Labs

June 2021 to December 2021

Gather specific requirements and suggest solutions.

Gather specific requirements and suggest solutions. Write unit and UI tests to identify malfunctions.

Software Developer

Modistabox

December 2019 to May 2021

Working as a part of the mobile app development team, my role was to design pixel perfect UIs and build functionality of MODISTABOX android and iOS applications on flutter.

Android Developer

JNB Technologies Pvt Ltd

July 2018 to December 2019

Worked on payment gateway & created UIs This provided the user an amenity to complete the

application process on the android app only,

PROJECTS

Software Engineer (Mobile Application Development) - Tech Mahindra (June 2024- Present)

Project: Mahindra Finance Unified

Description: The Mahindra Finance mobile app is a digital platform that allows customers to apply for new loans. The app also provides customers with personalized offers and other services.

Technology: Dart, Cubit, Clean Architecture, MVVM, Android studio, Bitbucket, SourceTree

Roles & Responsibilities:

- Develop and maintain cross-platform mobile application for Android and IOS flutter using dart.
- Involved in the analysis, design and development of the application.
- Designed, Developed, & modified projects using Agile methodologies.
- Handling multiple markets in a single code base.
- Gathering requirement and involved in problem solving and resolving any blockers.
- Client Interaction weekly and status calls to minimize any gaps and increase productivity.

Software Engineer (Mobile Application Development) - Tech Mahindra (Jan 2024- May 2024)

Project: Mahindra Finance Collection

Description: The Mahindra Finance mobile app is a digital platform that allows customers to access their loan payments.

Technology: Dart, Cubit, Clean Architecture, MVVM, Android studio, Bitbucket, SourceTree

Roles & Responsibilities:

- Develop and maintain cross-platform mobile application for Android and IOS flutter using dart.
- Involved in the analysis, design and development of the application.
- Designed, Developed, & modified projects using Agile methodologies.
- Handling multiple markets in a single code base.
- Gathering requirement and involved in problem solving and resolving any blockers.
- Client Interaction weekly and status calls to minimize any gaps and increase productivity.

Software Engineer (Mobile Application Development) - Tech Mahindra (Oct 2022- Oct- 2023)

Project: DEI

Description: B.TECH WeC is digital photography services offered by Digiphotography Entertainment Imaging (DEI) that provide the ability to access and use the a Point-of-Sale application developed for Windows using the Flutter Framework.
